

AECTP promoting quality in emergency care training

Your Organisation

AECTP was formed in 2010 by a group of organisations who were concerned about first aid standards in New Zealand. Today AECTP is recognised as the peak body for the first aid industry. It is actively involved in promoting best practice and engaging with stakeholders, standard setting bodies and training providers.

Our Purpose

ENGAGE

As the peak body AECTP ensures it maintains a close relationship with the Skills ITO offering advice and expertise. It also works with the New Zealand Qualifications Authority ensuring the first aid industry has a strong voice in the education sector.

SUPPORT

AECTP not only engages with the above bodies it also provides representation for its members. It offers support and advice via its website, regular newsletters and through its annual conference ensuring members are kept up to date with changes as they happen.

EDUCATE

Keeping members up to date with best practice is another task that's undertaken. The annual conference has seen both international and national experts address members. It also provides a platform bringing like-minded providers together.

Join Today

The Association of Emergency Care Training Providers (AECTP) would like to extend to you an invitation to join us and become part of a group committed to working towards the delivery of excellence in the first aid industry. There are two types of membership available either a full or associate member. AECTP represents around 80% of the first aid industry and members agree to and support a quality focus and ethical standard of delivery
